*Abstract: Academics knowledge sharing behaviour social intelligence plays an essential role in enhancing teaching and learning performance. Nevertheless, empirical studies that link these concepts are scarce. This paper aims to examine the influence of knowledge sharing behaviour and social intelligence on teaching and learning performance among academicians in Malaysian Private Universities. A questionnaire based survey was carried out among academicians in the Kelantan Valley area. The survey yielded 318 responses. The results were analysed using Statistical Package for the Social Science (SPSS) version 22 for Windows software. Specifically, the relationship between (1) knowledge sharing behavior and teaching and*
